

Beyond signalling

Coordinator: Prof Snezana Djordjevic

Wednesdays 1–2pm, Seminar room B36, Birkbeck College

-
- 26th April 2017 *Modulation of a lipid activated nuclear receptor by phosphorylation: effects on metabolic and cardiovascular disease*
Dr Inés Pineda-Torra, Division of Medicine, UCL
Host: Prof Snezana Djordjevic
-
- 3rd May 2017 *Off-topic: Structural studies of the type 6 secretion system from pseudomonas aeruginosa and other bacterial effector systems*
Prof Paul Freemont, Section of Structural Biology, Department of Medicine at Imperial College
Host: Prof Andres Ramos
-
- 10th May 2017 *Triple-helical peptides as probes for collagen-binding proteins*
Prof Richard Farndale, Department of Biochemistry, University of Cambridge
Host: Prof Snezana Djordjevic
-
- 17th May 2017 *Structural and functional studies on GAG-protein interactions using defined sulfated oligohyaluronanes: Protein ligands through fragment ligation*
Prof Jörg Rademann, Pharmacy Institute, Freie Universität Berlin
Host: Prof Snezana Djordjevic
-
- 24th May 2017 *Off-topic: Protein targeting and translocation studied by Cryo EM*
Prof Christiane Berger-Schaffitzel, School of Biochemistry, University of Bristol
Host: Prof John Christodoulou
-
- 31st May 2017 *Breast cancer – the bitter sweet pill*
Dr Miriam Dwek, Department of Biomedical Sciences, University of Westminster
Host: Prof Snezana Djordjevic
-
- 7th June 2017 *Engineering an artificial bacterial flagellar motor using DNA scaffold nanotechnology*
Dr Richard Berry, Department of Physics, University of Oxford
Host: Prof Snezana Djordjevic
-
- 14th June 2017 *Off-topic: Assembly of filamentous type 1 pili from uropathogenic Escherichia coli strains and mechanism of shear-force dependent adhesion*
Prof Rudolf Glockscher, Institute of Molecular Biology and Biophysics, ETH Zurich
Host: Prof Gabriel Waksman
-
